

Golden Eagle Voyage Weekend

March 10th - March 12th, 2023

During the peak of the annual Golden Eagle northern migration, spend an event-filled weekend in Central Pennsylvania with the opportunity to view these majestic birds!

Enjoy the comforts and accommodations of the Nature Inn while experiencing the natural beauty of Bald Eagle State Park. While Golden Eagles are the main attraction, this weekend will explore all local bird life and migrating raptors in the Pennsylvania Wilds!

Friday evening will begin with dinner followed by a presentation titled "Golden Eagles and Other Raptors in Central Pennsylvania" by guest speaker and author of *Birds of Central Pennsylvania*, Nick Bolgiano.

On Saturday, guests will travel to the Tussey Mountain Hawk Watch where we'll watch for a variety of hawks and migrating Golden Eagles with assistance from experienced hawk watchers. We'll continue on to Shaver's Creek Environmental Center for a hearty, hot lunch provided by the Nature Inn, followed by a live birds of prey program. To finish the day, we'll return to the Inn for another specially prepared dinner. Afterwards, guests will take part in an Owl Prowl, a nighttime stroll in search of PA's nocturnal birds of prey. Finally, we will round out this birding weekend with a Sunday Morning Migration Tour in the park after a delicious breakfast!

"Tussey Mountain consistently records the highest seasonal totals & peak daily counts of migrating golden eagles in spring in the eastern United States."

~ Birds of Central Pennsylvania

**Please call the Nature Inn at 814-625-2879
to inquire about pricing.**
